Kits Include:

- Mill Finish or Dk. Bronze
- Cut to size and mitered bodies
- Cut to size and mitered frames with covers
- Tension Clips
- Frame Braces for LED applications (Part #5357)
- All screws required to assemble by mechanical fastening
- All Corner Angles and/or Corner Keys required
- Packaging

Not Included in Kits:

- Face or Back
- Electrical Components
- Ballast Bracket(s) - See optional accessories
- Back Braces and Gussets
- Frame Support Tube - See optional accessories
- Raceway Covers and Cover Screws - See optional accessories
- Tension Tool - See optional accessories
- 6" and 9" Radius Corners - See optional accessories
- Mounting Provisions

Optional Accessories (pgs 125-126):

- Ballast Bracket(s)
- Frame Support Tube
- Raceway Covers and Cover Screws
- Tension Tool
- 6" and 9" Radius Corners

Kit Specifications:

- **It is recommended to order kits 1" over nominal T12 or T8 lamp size to utilize .040 flat Aluminum Raceway Covers**
- Custom size kits may be cut to any dimension
- Flexible Face Preparation - See page 129
- Frame Brace / Frame Support Tube placement - See page 130
- Tension Frame II is not engineered to integrate with the Divider System

Recommended Lamp Spacing:

- For illuminated backgrounds - 12" on center, using T12 or T8 lamps
- Always place lamps 3/4" from back of sign
- When using lamps, deduct $7.63 per Frame Brace

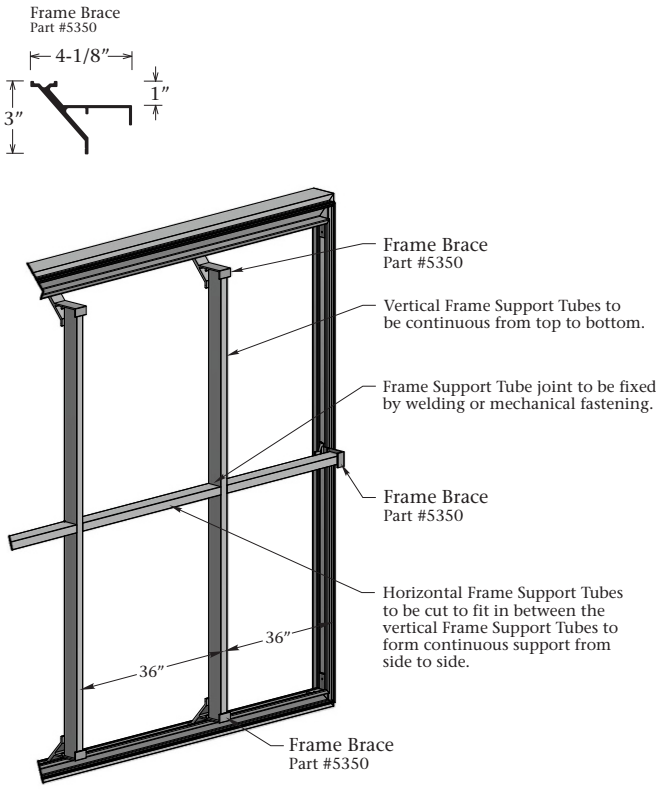
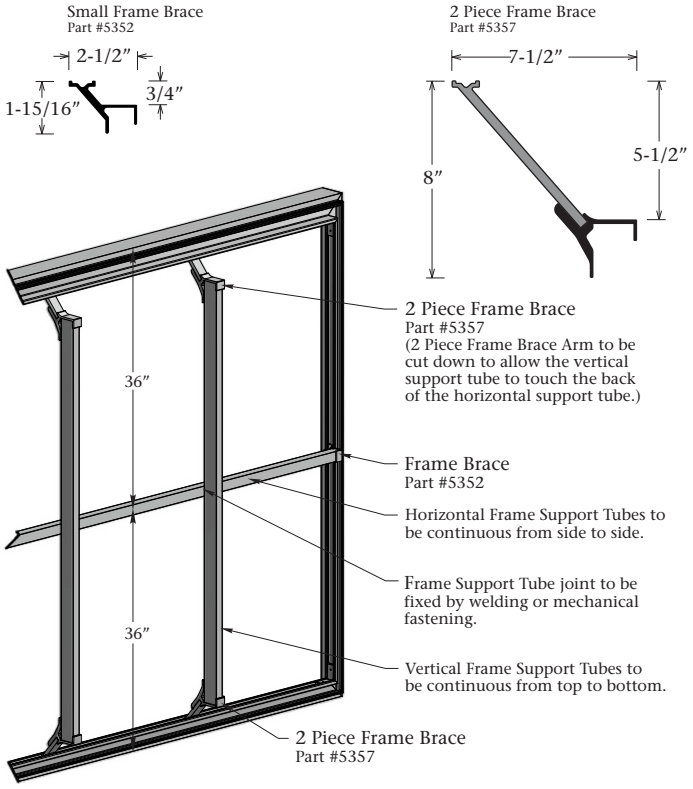
Frame Brace and Frame Support Tube Placement





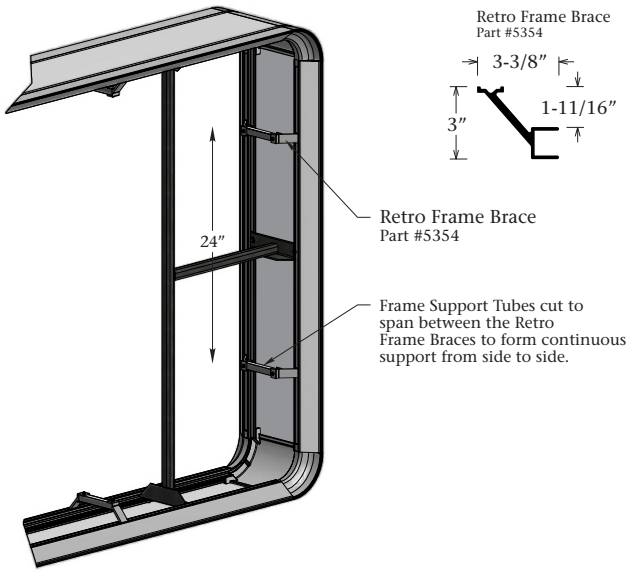
Compression Bracing for Flexible Vinyl Faces

Dual Frame, Tension Frame & Dual Divider

Place a vertical Frame Brace and Frame Support Tube approximately every 36" on center. Cut and insert horizontal pieces of Frame Support Tube approximately every 36" in between the vertical assemblies.

Retro Frames

Applications where the Retro Frame carries the compression load, placement of the Frame Brace and Frame Support Tube is the same as the Dual Frame, Tension Frame and Dual Divider.



Wind Bracing for Rigid Faces

2-1/4" Retainer & Dual Frame

The Frame Brace and Frame Support Tube may be used to tie the top retainer to the bottom retainer for large hingeable face applications.

1-1/2" Divider

Place a minimum of one (1) vertical Frame Brace and Frame Support Tube in the center of each 10' span.
Note: 10' span for one assembly / 16' span for two assemblies.

2" Divider & 2-3/4" Divider

Place a minimum of one (1) vertical Frame Brace and Frame Support Tube in the center of each 12' span.
Note: 12' span for one assembly / 18' span for two assemblies.

Retro Bracing

Place a Retro Frame Brace and 1" Frame Support Tube approximately every 24" on center around the perimeter of the cabinet. This bracing option may be used when there IS adequate structure in the cabinet and the frames are NOT required to hinge.

- Medium Body will accept a 3" square steel support tube and Wide Body will accept a 6" steel support, both accommodate the perpendicular placement of Frame Braces and Frame Support Tube
- Do not place the Frame Brace and Frame Support Tube directly in front of parallel steel support structures
- Place all Frame Braces and Frame Support Tubes directly in between parallel lamps
- Frame Braces and Frame Support Tubes that are perpendicular to lamps will not cause shadows
- Frame Brace configuration in cabinets is dependant on the body, frame, support size and lighting source being used

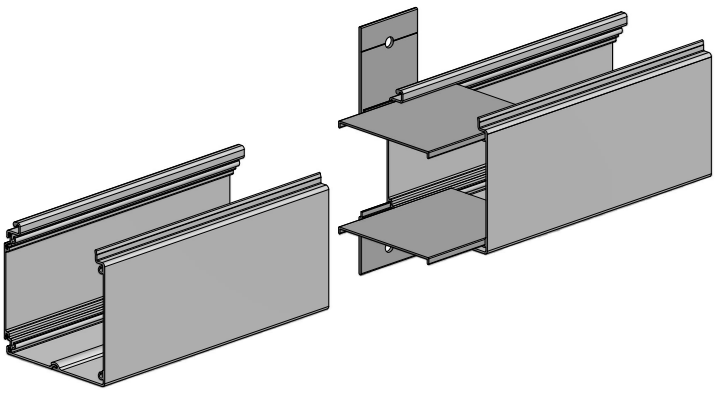
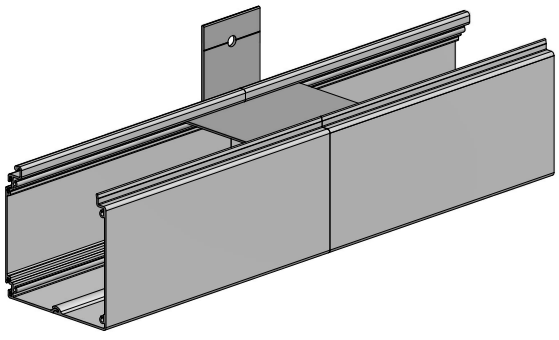
Channel Letter Raceway Splicing Guidelines

- Cut two 6" Channel Letter Raceway Brace/Brackets
- Insert into the top and bottom of one section of raceway
- Connect both sections of raceway together by sliding the brace/brackets into the second piece of raceway
- Weld or bond both sides of the top and bottom to secure the splice





Channel Letter Raceway Bundles available in full lengths only.

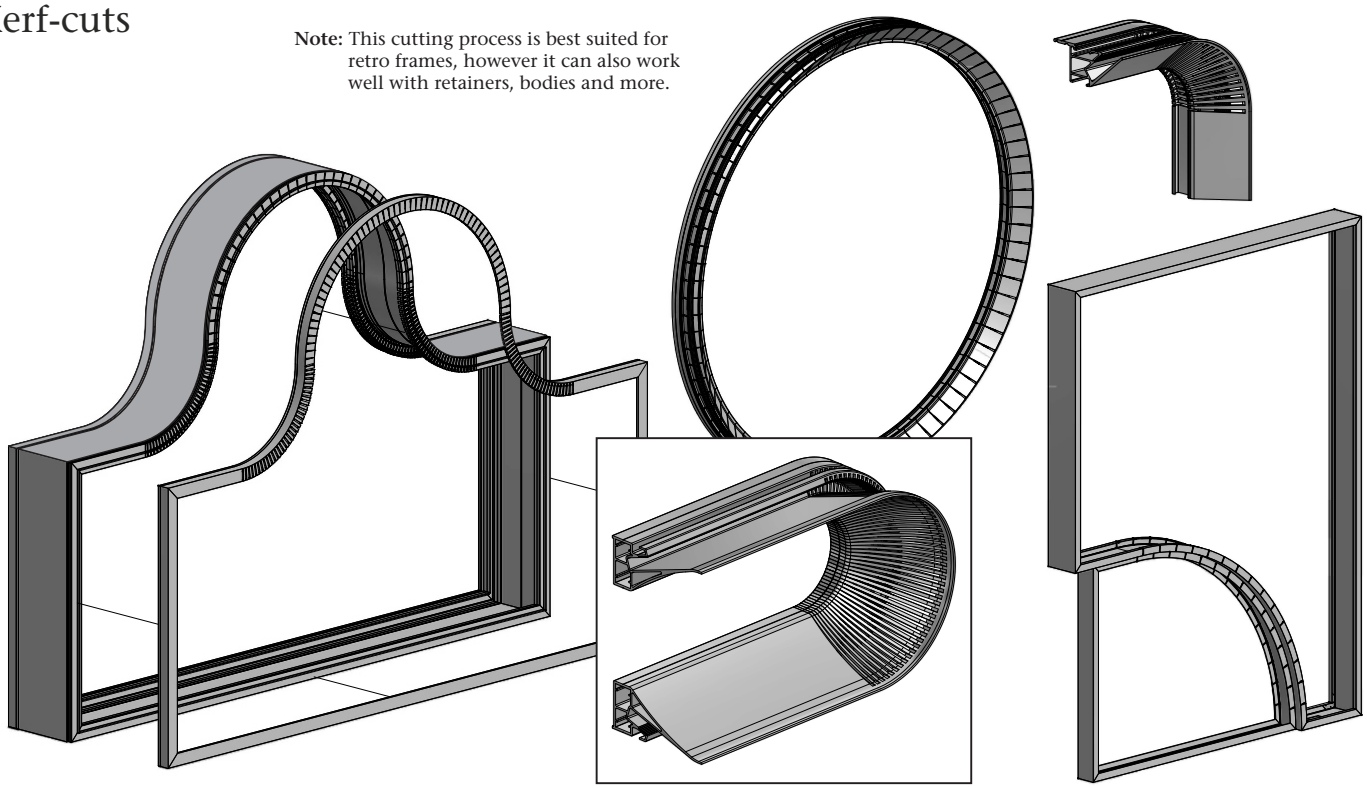
Cutting Services
Commercial - Architectural - Standard - EconoComp

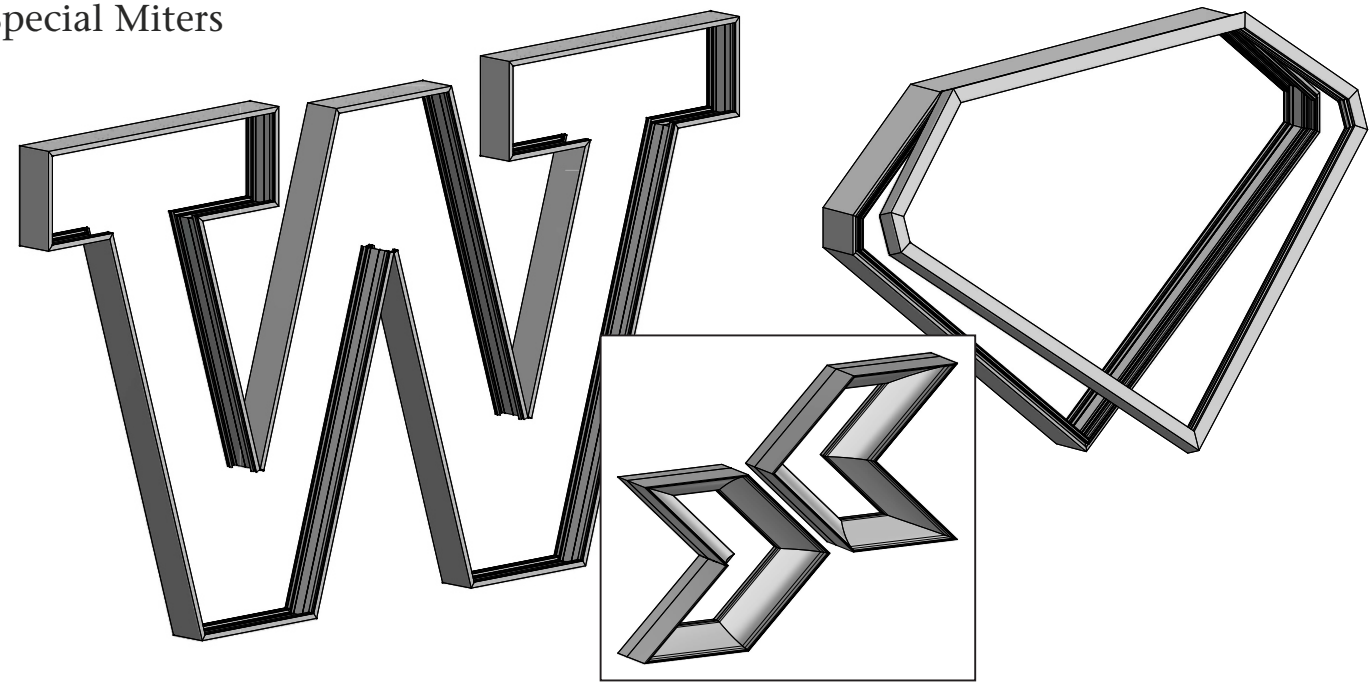
Kerf-cuts

Note: This cutting process is best suited for retro frames, however it can also work well with retainers, bodies and more.



A series of relief cuts are placed in the extrusion to form a custom shape. Add straps or weld to create and maintain the shape (not provided by SignComp). Offered in pre-cut lengths or pre-cut kits.

Special Miters



Pre-cut kits are available for custom angles. Custom angle hardware is not available.

Additional Information

Kits

- **Most profiles are available in cut to size kits**
- **Commercial** bodies and retainers should be cut 1" longer than the nominal T12 or T8 lamp size for horizontal or vertical lamping
- **Standard** bodies and retainers should be cut 1-3/4" longer than the nominal T12 or T8 lamp size for horizontal or vertical lamping (The 6" D/F bodies and retainers should be cut 1" longer than the nominal T12 or T8 lamp size for horizontal or vertical lamping)
- **EconoComp** fillers and moldings should be cut 1" longer than the normal T12 or T8 lamp size for horizontal or vertical lamping
- General guidelines for lamp spacing: Double the distance between the front of the lamp and the back of the plastic face for your center to center lamp measurement. Maximum center to center is 12"
- Extrusion bodies, retainers, frames and covers are engineered for mechanical fastening, bonding with adhesive, or welded assembly
- It is recommended to use safety chains and prop-bars on all hingeable faces
- Assembly instructions available

Exclusive Warranty and Remedies

- In effect as of January 1, 2008
- This is the exclusive warranty policy of SignComp, LLC, Grand Rapids, Michigan 49544 (the "Company") with respect to any and all of its products

Exclusive Warranty

- The Company warrants you as the original purchaser that the Company's products will be free from defects in materials and workmanship, under normal conditions, upon shipment of said products from the Company, for 30 days
- This exclusive warranty does not apply to damage caused by improper handling, therefore the company shall have no liability or responsibility for any damage whatsoever caused by handling
- The Company hereby disclaims any and all other warranties, including, without limitation, implied warranties of merchantability and fitness for a particular purpose. The only warranty with respect to the Company's products is described in this exclusive warranty. No oral or written representations shall extend the Company's exclusive warranty beyond that description herein.

Warranty Procedures

- The purchaser must notify the Company of any warranty claim prior to initiating any remedy upon the defective product. Upon receipt of such notice, the Company will direct that an authorized representative inspect the product and, if necessary, correct the defect in accordance with this exclusive warranty. The Company shall have the exclusive right to determine whether or not a defect is covered by this exclusive warranty.

Remedies

- Provided that the warranty procedures are followed, the Company will repair and/or replace the defective SignComp product(s) during the applicable warranty period without charge for parts or labor
- Repair and/or replacement of defective SignComp products is your exclusive remedy under the Company's exclusive warranty
- The Company shall not be liable for any incidental or consequential damages if the Company's product is defective or does not conform to this exclusive warranty. In any event the maximum amount for which the Company shall be liable to the purchaser shall be the original purchase price of the defective SignComp product(s).
- Any claim for breach of this exclusive warranty shall be brought, if at all, no later than 30 days from the Company's breach
