

### Features & Benefits

The Flat Bleed Retro Frame II is specifically designed to help reduce shadows by allowing streamline illumination. The Extended Bleed Retro Frame Cover II easily forms around a custom kerf cut Flat Bleed Retro Frame II. This system is the best solution for white transparent, light colored backgrounds, or LED applications. It is a solid choice no matter how it is illuminated, and a go to product for custom shapes. Available in Mill Finish.

### Answers to FAQ's

- Accepts up to 22 oz banner material.
- Tension Clip placement - Tension Clips are placed approximately 1-1/2" from the edge of the trimmed to size face material.
- Tension Clip spacing - Every 5" on center.
- Face material trim size - Add 3-1/2" of fabric to all four sides. (Adding a total of 7" to both the height and width)
- The correct Tension Tool to use with the frame is Part #5135.
- Frame Support Tube and Frame Braces may be required if kit is going to be transported in any way or hinging. Due to variances in depth, the 2 Piece Frame Brace Part #5357 should be used.

### Optional Items

- Frame Support Tube Part #2175
- 2 Piece Frame Brace Part #5357
- Tension Tool Part #5135
