

## Features & Benefits

The Commercial Dual Divider is designed to be used with the Dual Frame, Part #2065 and the 2" Retro Frame, Part #2112. The divider allows for transition from flex face to flex face or flex face to rigid face sign using the same frame. It is mounted in place using the Divider Angle, Part #5300. These Divider Angles allow for the divider to be easily repositioned in the sign at any time. It is available in Mill Finish and Dark Bronze.

## Answers to FAQ's

- Divider accepts up to a 1/4" thick face material or up to 22 oz banner material
- Tension Clip placement - Tension Clips are placed approximately 1-1/2" from the edge of the trimmed to size face material
- Tension Clip spacing - Every 5" on center
- Face material trim size - Add 1-1/2" of fabric to all four sides. Measure to the center of the Dual Divider. (Adding a total of 3" to both the height and width)
- Frame Support Tube and Frame Brace placement - Every 36" on center horizontally and vertically
- The Tension Tool that is required for this frame is Part #5135

## Optional Items

- Frame Support Tube, Part #2175
- Frame Brace, Part #5350
