

Features & Benefits

The Architectural 1-1/4" Divider is designed to be used with the Slide Retainer Part #1624 and the Access Frame Part #1690. The divider has a framed appearance which will allow for vertical and horizontal dividers to integrate easily. The dividers are mounted in place using the 1/4" Divider Tab Part #5308. When the sign requires vertical and horizontal dividers a Divider Corner Angle Part #5325 is used to attach the dividers together.
