

Features & Benefits

The Wall Mount Tension Frame will tension any size banner and only projects 1" from the attached support structure. The Tension Clips are easy to use and are re-useable. Eliminates hemming, grommets and double faced tape. It is available in Mill Finish.

Answers to FAQ's

- Accepts up to 22oz banner material
- Tension Clip placement - Tension Clips are placed approximately 2-1/4" from the edge of the trimmed to size face material
- Tension Clip spacing - Every 5" on center
- Face material trim size - Add 2-1/4" of fabric to all four sides (adding a total of 4-1/2" to both the height and width) to establish the trimmed edge of the fabric
- Visible opening- Deduct 3" from the overall height and width of the frame
- The Reverse Wall Mount Tension Tool is designed to tension this frame
