

Note: Drill an oversized hole in the cover allowing for the screw to fit up to the frame. This will allow for the cover to be removed by removing only the cover screw.

Features & Benefits

The Flat Bleed Retro Frame is designed to fit over an existing sign or support structure. Typically it changes a rigid faced sign to a flex faced sign. It will tension any size banner. The Tension Clips are easy to use and are re-useable. Eliminates hemming, grommets and double faced tape. It is available in Mill Finish.

Answers to FAQ's

- Accepts up to 22oz banner material.
- Tension Clip placement - Tension Clips are placed approximately 1-1/2" from the edge of the trimmed to size face material
- Tension Clip spacing - Every 5" on center
- Face material trim size - Add 3-1/4" of fabric to all four sides. (Adding a total of 6-1/2" to both the height and width)
- The correct Tension Tool to use with the frame is Part #5135
- Frame Support Tube and Frame Braces may be required if the existing sign or structure is not strong enough to support the tension load
- To fit over the existing structure kits will be cut .25 over the outside dimensions of the cabinet

Optional Items

- Frame Support Tube, Part #2175
- Frame Brace, Part #5350 or 2 Piece Frame Brace, Part #5357
- Tension Tool, Part #5135
