

Features & Benefits

The Bleed Retro Frame is designed to fit over an existing sign or support structure. Typically it changes a rigid faced sign to a flex faced sign. It will tension any size banner. The Tension Clips are easy to use and are re-useable. Eliminates hemming, grommets and double faced tape. It is available in Mill Finish.

Answers to FAQ's

- Accepts up to 22oz banner material
- Tension Clip placement - Tension Clips are placed approximately 1-1/2" from the edge of the trimmed to size face material
- Tension Clip spacing - Every 5" on center
- Face material trim size - Add 3" of fabric to all four sides (Adding a total of 6" to both the height and width)
- The correct Tension Tool to use with this frame is Part #5135
- Frame Support Tube and Frame Braces may be required if the existing sign or structure is not strong enough to support the tension load.
- To fit over the existing structure kits will be cut .82" over the outside dimensions of the cabinet
