Sign Extrusions and Systems

Product Guide

Volume 3.3

Index - Extrusion Solutions for the Sign Industry

COMMERCIAL

Extrusions by the Length			pages 4-10
Sign Cabinet Bodies	4	Retro Tension Frames and Covers	8
Hingeable Retainers and Covers	5-6	Retro Fascia Frames and Cover	9
Dividers / Hingeable Vandal Systems	6	Wall Mount Tension Frames and Covers	9
Radius Ends	7	Compression Reinforcement	10
Tension Bodies and Covers	7	Soft Signage Frames and Covers	10
System Accessories			pages 11-14
Radius Corners	11	Components / Hardware	12-14
System Configurations			pages 15-23
System Specifications			pages 24-36
Sign Cabinet Bodies	24-25	Tension Bodies and Covers	32
Hingeable Retainers and Covers	26-27	Retro / Tension Frames and Covers	33-34
Dividers	28	Retro Fascia Frames and Cover	34
Hingeable Vandal Systems	29	Wall Mount Tension Frames, Covers and Tools	35
Hingeable Retainer for Insert Panels	30	Soft Signage Frames and Covers	36
Radius Ends	31		
Flexible Face Preparation / Extrusion Guidelines			page 37
Frame Brace and Frame Support Tube Placement			page 38

ARCHITECTURAL

Extrusions by the Length			pages 40-45
Series 1 Posts / Copy Bars and Reveal	40	Sign Cabinet Bodies / Retainers and Covers / Divider	43
Panel Adaptors / Reveal and Fillers	40	Insert Panel Systems	44
Post and Panel Systems - Series 2, 3, 4 & 7	40-42	Monolithic Edges / Radius Ends	45
System Accessories			pages 46-48
System Configurations			pages 49-55
System Specifications			pages 56-66
Series 1 Post and Panel / Copy Bar Systems	56-57	Hingeable Sign Cabinet Bodies / Retainers / Dividers	62-64
Post and Panel Systems - Series 2, 3, 4 & 7	57-60	Monolithic Edges	64
Panel Adaptor Systems	59	Insert Panel Systems	65
Non-Hingeable / Hingeable Post and Panel Systems	61-62	Radius Ends	66
Architectural System Combinations			page 67
RTS Post & Panel System			page 68

STANDARD

Extrusions by the Length			pages 70-76
Sign Cabinet Bodies / Retainers	70	Wall Frames	72
Dividers / Vandal Systems / Menu Board System	71	Standard Moldings	72
Edge Lit	71	Socket and Ballast Raceways	72
Snap Frames and Covers	72	Channel Letter Raceways / Splicing Guidelines	73-76
System Accessories			pages 76-78
System Configurations			pages 79-83
System Specifications			pages 84-90
Sign Cabinet Bodies / Retainers	84-85	Edge Lit Systems / Snap Frame Systems	89
Dividers	86	Wall Frames / Moldings / Raceways	90
Vandal Systems	86-87	Channel Letter Raceway Systems	91-92
Menu Board System	88		

ECONOCOMP

Extrusions by the Length			page 94
Sign Cabinet Fillers / Moldings / Divider	94		
System Accessories			page 94
System Configurations			page 95
System Specifications			pages 96-97
Sign Cabinet Fillers	96	Moldings / Divider	97
Cutting Services			page 98
Additional Information			page 99

Extrusion Guidelines

Size of Sign

- Single Face Body Typically limited by the comfort factor for hinging the faces open for service
- Medium Body Typically limited to approximately 64 square feet
- Wide Body Typically limited by the comfort factor for hinging the faces open for service
- 1-1/2" Retainer Typically limited to 32 square feet
- 1-1/2" Retainer II Typically limited to 60 square feet
- Fascia Frames Typically limited to 6' in height - unlimited length

If the size of the sign is such that hinging open for service is not applicable, SignComp offers the following options:

- 1) SignComp retro fit extrusions attached to steel framework - Access panels through fabricated cabinet.
- 2) Service the sign by removing the face -
 - a) Rigid plastic faces - The Dual Frame Cover may be removed to allow the plastic faces to slide to one side.
 - b) Flexible fabric faces - Tension Clips easily release to allow access to the interior of the sign.

Steel Support

- Medium Body Up to a 3" steel support, see page 23
- Wide Body Up to a 6" steel support, see page 23
- Flat 2 Piece Double Face Body Up to a 12" steel support, see page 24
- Flat 2 Piece Double Face Medium Body Up to a 8" steel support, see page 24
- Flat Double Face Body Up to a 6" steel support, see page 24
- Flat Double Face Medium Body Up to a 2" steel support, see page 24

Round, square or rectangular supports may be used. Do not exceed recommended max sizes.

Note: SignComp extrusions are engineered and designed to allow for a wide latitude of designs and applications. The fabrication techniques and material selection are at the sole discretion of the individual fabricator.

Frame Brace and Frame Support Tube Placement

Compression Bracing for Flexible Vinyl Faces

Dual Frame, Tension Frame & Dual Divider

Place a vertical Frame Brace and Frame Support Tube approximately every 36" on center. Cut and insert horizontal pieces of Frame Support Tube approximately every 36" in between the vertical assemblies.

Retro Frames

Applications where the Retro Frame carries the compression load, placement of the Frame Brace and Frame Support Tube is the same as the Dual Frame, Tension Frame and Dual Divider.

Wind Bracing for Rigid Faces

2-1/4" Retainer & Dual Frame

The Frame Brace and Frame Support Tube may be used to tie the top retainer to the bottom retainer for large hingeable face applications.

1-1/2" Divider

Place a minimum of one (1) vertical Frame Brace and Frame Support Tube in the center of each 10' span.
Note: 10' span for one assembly / 16' span for two assemblies.

2" Divider & 2-3/4" Divider

Place a minimum of one (1) vertical Frame Brace and Frame Support Tube in the center of each 12' span.
Note: 12' span for one assembly / 18' span for two assemblies.

Retro Bracing

Place a Retro Frame Brace and 1" Frame Support Tube approximately every 24" on center around the perimeter of the cabinet. This bracing option may be used when there IS adequate structure in the cabinet and the frames are NOT required to hinge.

- Medium Body will accept a 3" square steel support tube and Wide Body will accept a 6" steel support, both accommodate the perpendicular placement of Frame Braces and Frame Support Tube
- Do not place the Frame Brace and Frame Support Tube directly in front of parallel steel support structures
- Place all Frame Braces and Frame Support Tubes directly in between parallel lamps
- Frame Braces and Frame Support Tubes that are perpendicular to lamps will not cause shadows
- Frame Brace configuration in cabinets is dependant on the body, frame, support size and lighting source being used

Channel Letter Raceway Splicing Guidelines

- Cut two 6" Channel Letter Raceway Brace/Brackets
- Insert into the top and bottom of one section of raceway

- Connect both sections of raceway together by sliding the brace/brackets into the second piece of raceway
- Weld or bond both sides of the top and bottom to secure the splice

Cutting Services

Commercial - Architectural - Standard - EconoComp

Kerf-cuts

Note: This cutting process is best suited for retro frames, however it can also work well with retainers, bodies and more.

A series of relief cuts are placed in the extrusion to form a custom shape. Add straps or weld to create and maintain the shape (not provided by SignComp). Offered in pre-cut lengths or pre-cut kits.

Special Miters

Pre-cut kits are available for custom angles. Custom angle hardware is not available.

Additional Information

Kits

- **Most profiles are available in cut to size kits**
- **Commercial** bodies and retainers should be cut 1" longer than the nominal T12 or T8 lamp size for horizontal or vertical lamping
- **Standard** bodies and retainers should be cut 1-3/4" longer than the nominal T12 or T8 lamp size for horizontal or vertical lamping (The 6" D/F bodies and retainers should be cut 1" longer than the nominal T12 or T8 lamp size for horizontal or vertical lamping)
- **EconoComp** fillers and moldings should be cut 1" longer than the normal T12 or T8 lamp size for horizontal or vertical lamping
- General guidelines for lamp spacing: Double the distance between the front of the lamp and the back of the plastic face for your center to center lamp measurement. Maximum center to center is 12"
- Extrusion bodies, retainers, frames and covers are engineered for mechanical fastening, bonding with adhesive, or welded assembly
- It is recommended to use safety chains and prop-bars on all hingeable faces
- Assembly instructions available

Included in Kits

- Mill Finish, Dk. Bronze or Clear Anodized
- Cut to size and mitered bodies
- Cut to size and mitered retainers, frames and covers
- All Body Corner Angles and/or Corner Keys as required
- Packaging

Included in Vandal System:

- Cut to size and mitered Inner Frame(s)
- Cut to size and mitered Outer Frame(s)
- Cut to size Hinge
- Locks

Not Included in Kits

- Faces or Backs
- Electrical components
- Structural supports, Frame Support Tube, back braces, gussets and mounting provisions
- Attachment of Hinge
- Drilling of holes for locks and attachment of locks

Mill Finish Dk. Bronze

- No prior surface preparation. Surface scratches, die lines and imperfections present. **Not ready for paint**
- Exposed aluminum surfaces are coated with Quaker Dark Bronze primer/topcoat
- Limited additional colors are available, minimum order will apply

Clear Anodized

- SignComp anodizes a mill finish product, therefore mill finish characteristics will be an integral part of the anodized product
- Die lines and imperfections may be seen but not felt on the finished product

Pricing

- Due to fluctuation in the raw aluminum market, prices are subject to change without notice
- Packaging is included in list prices
- For kit pricing see Kit Pricing Guide

General Information

Freight Policy

- Freight shall be prepaid, F.O.B. SignComp (Grand Rapids, MI) to any single destination within the continental United States or Canada for one shipment of extrusion and/or accessories when the invoiced amount meets or exceeds the current prepaid standard.
- Freight shall be collect, F.O.B. SignComp (Grand Rapids, MI) for all other orders.
- All freight claims for freight collect shipments are the sole responsibility of the buyer.
- SignComp will assist with freight claims. Bill of lading must be signed as "damaged" when applicable.
- Any requests for expedited freight services shall be the sole expense of the buyer.

Minimum Order

- Any single full length extrusion profile and/or prepackaged accessories
- Any single kit

Standard Lead Times

- Full-length extrusion and accessory orders: 2-3 business days upon receipt and acceptance of purchase order
- Cut to size kits and cut extrusion: 3-4 business days upon receipt and acceptance of purchase order
- All orders will receive an approximate ship date upon receipt and acceptance of purchase order and confirmation
- For custom kits and large quantities call Customer Service for lead times

Return Policy

- Returns of SignComp products will not be accepted without prior authorization and a written RMA number from SignComp.
- Materials may not be returned for any reason other than defective product or incorrect fulfillment of order.
- All goods to be returned must be acknowledged in writing within 60 days of the shipment date. Claims after this period will be considered invalid.
- All returned goods **must be in new and saleable condition** for full credit to be issued.

Additional Product Service Offerings

- Custom extrusions
- Mill Run extrusion orders
- Kerf Cutting

Exclusive Warranty and Remedies

- In effect as of January 1, 2008
- This is the exclusive warranty policy of SignComp, LLC, Grand Rapids, Michigan 49544 (the "Company") with respect to any and all of its products

Exclusive Warranty

- The Company warrants you as the original purchaser that the Company's products will be free from defects in materials and workmanship, under normal conditions, upon shipment of said products from the Company, for 30 days
- This exclusive warranty does not apply to damage caused by improper handling, therefore the company shall have no liability or responsibility for any damage whatsoever caused by handling
- The Company hereby disclaims any and all other warranties, including, without limitation, implied warranties of merchantability and fitness for a particular purpose. The only warranty with respect to the Company's products is described in this exclusive warranty. No oral or written representations shall extend the Company's exclusive warranty beyond that description herein.

Warranty Procedures

- The purchaser must notify the Company of any warranty claim prior to initiating any remedy upon the defective product. Upon receipt of such notice, the Company will direct that an authorized representative inspect the product and, if necessary, correct the defect in accordance with this exclusive warranty. The Company shall have the exclusive right to determine whether or not a defect is covered by this exclusive warranty.

Remedies

- Provided that the warranty procedures are followed, the Company will repair and/or replace the defective SignComp product(s) during the applicable warranty period without charge for parts or labor
- Repair and/or replacement of defective SignComp products is your exclusive remedy under the Company's exclusive warranty
- The Company shall not be liable for any incidental or consequential damages if the Company's product is defective or does not conform to this exclusive warranty. In any event the maximum amount for which the Company shall be liable to the purchaser shall be the original purchase price of the defective SignComp product(s).
- Any claim for breach of this exclusive warranty shall be brought, if at all, no later than 30 days from the Company's breach

Address for Notification

- Notice of a product defect covered by this exclusive warranty can be made in writing or by telephone. The Company's address and telephone numbers are:
